

Prepruning machines PRO

Prepruning machine for mechanization of winter pruning in the vineyards, pruning is done by set of pruning discs, hydraulically adjustable turning speed, hydraulic opening of rotors with electric remote control, driven by two hydraulic motors, adjustable pressure of rotors. Including hydraulic hoses and quick couplings, hoses length up to 250 cm.

prepruning machines PRO		order no.	
	PRO-4904 - working height 33 cm, gap 9 cm, 4 pairs of discs	PRO4904	
	PRO-4905 - working height 43 cm, gap 9 cm, 5 pairs of discs	PRO4905	
	PRO-4906 - working height 53 cm, gap 9 cm, 6 pairs of discs	PRO4906	
	PRO-4907 - working height 63 cm, gap 9 cm, 7 pairs of discs	PRO4907	
	PRO-4605 - working height 32 cm, gap 6 cm, 5 pairs of discs	PRO4605	
	PRO-4606 - working height 39 cm, gap 6 cm, 6 pairs of discs	PRO4606	
	PRO-4607 - working height 46 cm, gap 6 cm, 7 pairs of discs	PRO4607	
	PRO-4608 - working height 54 cm, gap 6 cm, 8 pairs of discs	PRO4608	
	PRO-4609 - working height 61 cm, gap 6 cm, 9 pairs of discs	PRO4609
