

Pruning machines PN4

Pruning machines for small handlers or compact tractors with frontloader with pruning bars PNP. Special lightened suspension with fork for mounting the pruning bars PNP. Including hydraulic hoses and quick couplings, hoses length up to 150 cm.

It is necessary to specify the exact type of carrier or the connection dimensions, when ordering.

suspension PN4		order no.	
	suspension PN4-MM - right-sided - mechanical side shift 60 cm - mechanical tilting 0°/ +90°	PN4RAM01MM000	
	suspension PN4-MH - right-sided - mechanical side shift 60 cm - hydraulic tilting 0°/ +90°	PN4RAM01MH000	
	suspension PN4-HM - right-sided - hydraulic side shift 60 cm - mechanical tilting 0°/ +90°	PN4RAM01HM000	
	suspension PN4-HH - right-sided - hydraulic side shift 60 cm - hydraulic tilting 0°/ +90°	PN4RAM01HH000	

pruning bars		order no.	
	PNP-050, vertical (5 saw blades, working length 165 cm)	PNP050R	
	PNP-040, vertical (4 saw blades, working length 135 cm)	PNP040R	

supplements and accessories		order no.	
	oil flow control valve 01	DEL01	
	hydraulic diverging, built-in <i>(control of 2 functions by 1 hydraulic circuit)</i>	HYDRVESTPN4	
	hydraulic diverging ECO, built-in <i>(control of 3 functions by 1 hydraulic circuit)</i>	HYDRECOPN4	
	hydraulic control valve, electric operated, modular	2x double-acting, 1x single-acting HYDR21VESTPN4	
	pilot operated check valve of tilting cylinder	ZAMEKNAKLPN4
